WORK EXPERIENCE

Ericsson May 2023 - Present

Senior Frontend / Full-Stack Contributor | Security Master.

- Contributed to **React + TypeScript** applications within a micro-frontend architecture.
- Led the development of a new project from inception and contributed to existing projects..
- Introduced modern solutions to streamline development (**React Query, React Final Form**, Husky pre-commit hooks, MSW).
- Achieved 80%+ test coverage using **Jest**. Reduced code duplication to 3%, as reported by **SonarQube**. Contributed to end-to-end testing using the **Robot Framework** with the Browser Library.
- Contributed to Backend REST API with **Python**, **FastAPI**, **Pandas**, **DuckDB** delivering end-to-end features.
- Acted as security master, mitigating vulnerabilities, ensuring compliance, and managing documentation.
- Managed deployments using **Docker** and **Kubernetes**, automating the process with **Bash** scripts and contributing to **Jenkins** pipelines.
- Shared knowledge by mentoring junior developers, conducting code reviews, leading knowledge-sharing sessions, and co-presenting at Ericsson Developer Conference.

Luxoft Dec 2022 - Apr 2023

Senior Frontend Developer

- Developed high-performance web applications with **React, TypeScript, GraphQL, and Apollo.**
- Ensured code quality and maintainability with unit tests (**Jest**) and end-to-end tests (**Cypress** with **Cucumber** and **Gherkin**).
- Contributed to an internal shared library of UI components.

Grid eSports Apr 2022 - Nov 2022

Frontend Developer

- Collaborated on multiple products using **React, TypeScript, Apollo, GraphQL** and **emotion-js**. Used **Jest** & **Cypress** for **unit and E2E testing**, ensuring high-quality and maintainable code.
- Developed user interfaces capable of handling large volumes of live data efficiently using **WebSockets** for real-time communication.
- Contributed to an internal shared library of UI components and integrated new components in **Storybook.**

Digital Basis Mar 2021 - Mar 2022

Frontend Developer

- Built responsive mobile-first MVP apps with **React, Redux Toolkit, RTK Query, Jest, React-Testing-Library.**
- Streamlined development by defining data contracts with OpenAPI, enabling API-related code generation for frontend apps.

Self-Employed Oct 2020 - Feb 2021

Frontend Developer

- Built scalable web applications with **React**.js, **Redux**, and **Styled-Components** as part of remote teams.
- Participated in rebuilding a native Android application into a **React Native** cross-platform app.

AthliOS Jun 2018 - Sep 2020

UI/UX Designer

- Designed touchscreen **UI**s for treadmills and supporting dashboards, while maintaining and enhancing existing product UIs with new features and **UX** improvements.

Self-Employed Sep 2012 - Jun 2018

UI/UX Designer

- Completed over 50 projects with a 100% job success score on Upwork, designed UI for mobile apps, dashboards, e-commerce platforms, and landing pages.
- Worked remotely as part of teams and as an individual contractor, ensuring smooth UI handovers, cross-platform compatibility, and client satisfaction through effective communication and planning.

SKILLS, LANGUAGES, INTERESTS

Skills: JavaScript, TypeScript, Python, Golang, HTML, CSS, SQL, Bash, React, FastAPI, GraphQL, REST API, WebSocket, Redux, Apollo, React-Query, Styled-Components, Jest, Robot Framework, React Testing Library, Cypress, Cucumber, Gherkin, Webpack, Sentry, Docker, Kubernetes, Jenkins, GIT
Languages: Ukrainian (native), Russian (Bilingual), English (B2+), Spanish (B1).
Interests: Chess, Hiking, Beach Volleyball.

EDUCATION

Taras Shevchenko National University of Kyiv (2009 - 2013)
